Recommended Projects

- phpMyAdmin**
A software tool to bring MySQL to the Web
- EasyPHP**
A complete WAMP environment for PHP development & personal web hosting
- XAMPP**
An easy to install Apache distribution containing MySQL, PHP, and Perl
- iisnode**
Hosting node.js applications in IIS on Windows

2º Passo - Instalando o Wampp

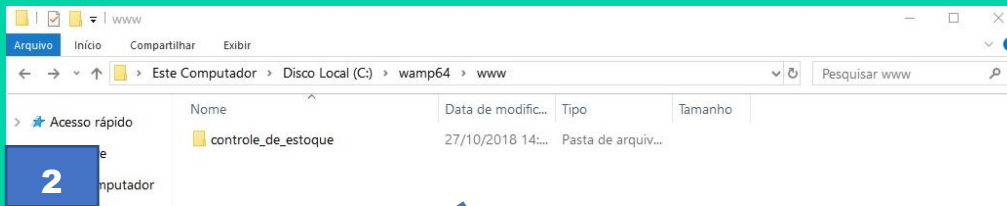

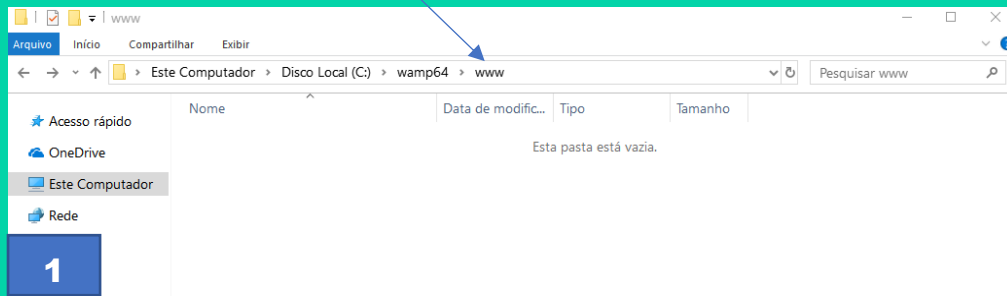

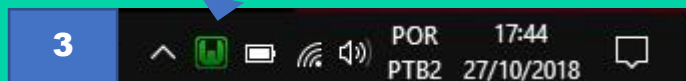

3º Passo - Configurações

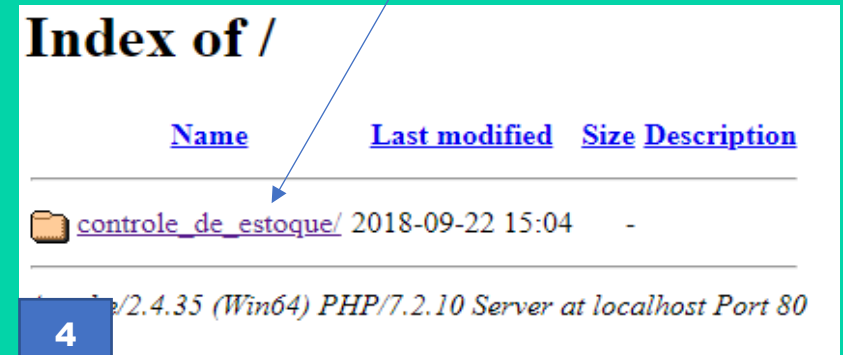

Vá até onde o Wamp foi instalado, abra a pasta www e exclua todo o conteúdo dela

Copie e cole a pasta do programa na pasta www. Inicie o Wamp, espere até ficar verde

Abra o navegador, digite localhost e aperte enter. Clique no link ao lado da pasta.

Digite no seu navegador o seguinte endereço `http://localhost/controle_de_estoque/criar_banco.php`. Siga a instrução que aparecerá na tela.

Senha: simaodias2018

LOGIN

The image shows a login form for 'Prepara Cursos'. On the left is the company logo, which consists of a red circle with a black swoosh and the text 'Prepara Cursos'. To the right of the logo is the title 'Autenticação' in bold. Below the title are two input fields: 'Usuário' and 'Senha'. A red 'LOGIN' button is at the bottom. Two blue callout boxes provide the login credentials: 'Usuário: prepara' points to the 'Usuário' field, and 'Senha: simaodias2018' points to the 'Senha' field. There are also several small decorative icons: a blue circle, a green triangle, a grey square, and a blue circle.
